

Take today's simulator numbers to the course.

Bay2Course gives indoor golf venues a free venue account, QR table-tent copy, and a tracked code so golfers can save what the sim, coach, gear test, and course actually told them.

VENUE OFFER

\$0

Free account plus QR pilot

Best for simulator bays, indoor golf lounges, teaching bays, winter leagues, and coach-led practice blocks.

FREE

Venue account

A named venue code for scans, clicks, calculator use, app downloads, and checkout intent.

PRINTED PROMPT

QR table tent copy

Simple bay copy: scan before leaving, save today's numbers, check them outside.

SOFT CTA

Gap calculator

A no-pressure tool that explains the app before asking anyone to subscribe.

OWNER PROOF

Follow-up report

A clean read on who engaged, what moved, and which next touch is worth making.

TABLE TENT SAYS

Take today's numbers to the course.

Scan before you leave the bay. Save your carry numbers, check your club gaps, and bring one trusted number outside.

Powered by Bay2Course. No official simulator integration required.

DASHBOARD PROVES

What happened after the scan.

Demand: QR scans, page views, and email clicks by venue code.

Usage: Calculator runs, app-store clicks, saved-session intent, and imports where available.

Revenue: Stripe checkout clicks and paid conversions only when confirmed by webhook.

Follow-up: Owner next actions: who clicked, what went cold, and what should be revived.

Owner follow-up without replacing booking or sim software.

1	Customer finishes a sim session and scans the QR before the numbers disappear.
2	Bay2Course gives them a quick gap check and a place to remember the sim, lesson, gear, and course notes.
3	The venue sees proof: scans, calculator usage, app clicks, checkout intent, and stale opportunities.
4	The owner follows up with the right player, league, coach, school, sponsor, or event lead.

Why it helps: It turns a simulator session into a reason to come back, book a lesson, join a league, test gear, or keep the venue connected after outdoor season starts.
