

Post your indoor number. Prove it outside.

A creator, coach, or venue challenge: take one club from the simulator bay, save the number, test it on the course, and record whether it carried expected, short, or long.

Creator Hook	My sim says X	Show the indoor number and ask what number should actually be trusted on grass.
Venue QR	Scan before leaving	Give golfers a free calculator and tracked venue code after a bay session.
Coach Use	Bring proof back	Students return with one course check instead of a fuzzy memory.
CTA	Try the calculator	Use https://bay2course.com/gap-distance-calculator as the low-friction first step.

Use tracked codes for creator, venue, and coach campaigns. Challenge page: <https://bay2course.com/sim-to-course-challenge>
